TacPac sessions

We love our TacPac lessons at Mapledown school! Here are some ways you can get involved and do the sessions at home!

Tacpac draws together touch and music to create a structured half hour of sensory communication between two people. Tacpac creates sensory alignment and helps people of any age who have sensory impairment, developmental delay, complex learning difficulties, tactile defensiveness, and limited or pre-verbal levels of communication.

The avenue special needs academy have released a number of videos where you can join in with their TacPac session! I believe they have released 5 sessions they are available to watch anytime but will also stream live. Please check their facebook for details and the videos.
