

Headlines for School Improvement

Vision and School Development Plan 2020-2023

School Vision, written in collaboration with whole school priorities identified within last Ofsted and SEF process, and taking in to account the impact of the COVID-19 pandemic. Three year overview plan aimed at making the Vision a reality. Detailed plans, focusing on four key growth areas. Supporting action plans 2020-21 with achievable goals. Future action plans added annually.

Working and Learning Together

Four growth areas:

Growth Area 1: Recognising and providing the support each student needs to be motivated to learn, empowering independence, through creating a curriculum which meet the individual needs of all learners.

Growth Area 2: Ensuring that all staff have opportunities to develop their skills and use their expertise to expand possibilities for each student by providing inspirational opportunities.

Growth Area 3: Assessing, setting refined and challenging targets consistently and tracking students' progress effectively, celebrating their achievements with parents and carers, and guiding families to be successful.

Growth Area 4: Strengthening the knowledge and skills of the Governing body so that they can offer ongoing challenge and support to the school.

The School Development Plan will ensure that the school's systems and processes are aligned to the Ofsted Inspection Framework. It is informed by the School Evaluation Form which is updated in the autumn term
